

Technical information - No.: BCD-20-01

On the basis of this information relating to product groups, we, BOPLA Gehäusesysteme GmbH, confirm that the characteristics and properties listed below correspond to the product group.

Product group:

Bocard

Protection class acc. to DIN EN 60529: up to IP 65 acc. to version
IP 66 on request

Material usage

Enclosure parts	ABS
Crystal-clear lid	polycarbonate
Front panels	aluminium
Mounting panels and partitions	laminated paper

Material characteristics

Heat distortion temperature A (ISO 75)	80°C
Flammability (UL 94)	HB

Confirmed standards

RoHS
REACH

Other information

The heat distortion temperature of an enclosure is also dependent on the presence of a seal.

In addition, the temperature limits can be affected by mechanical stresses.

The properties listed have been established on standardized test pieces.

The details of technical information are provided to the best of our knowledge, but this does not release the user from the obligation to test the suitability of these details in respect of the intended processes and purposes.
